ABDUL MALIK

Place of birth: Kasganj, India | **Nationality:** Indian | **Gender:** Male | **Phone number:** (+91) 7618544623 (Home) | **Email address:** malik.kasganj@gmail.com | **LinkedIn:** abdulmalik3721 | **GitHub:** abdulmalik3721 |

Address: Chowk Maniharan, Mohalla Nawab, 207123, kasganj, India (Home)

ABOUT ME

Computer Science and Engineering graduate with practical experience in full-stack development, programming, databases, and RESTful APIs. Demonstrated interest in Computer Engineering, **Internet Of Things**, and automation, supported by an **NPTEL Introduction to Internet of Things** certification **(79%)** and relevant technical coursework. Aspiring to advance my engineering knowledge and analytical capabilities through postgraduate studies in Computer Engineering.

EDUCATION AND TRAINING

08/08/2021 – 10/06/2025 Mohali, India

BACHELOR OF ENGINEERING (B.E.) IN COMPUTER SCIENCE AND ENGINEERING Chandigarh University

Bachelor's degree in Computer Science and Engineering, with coursework in Artificial Intelligence and Machine Learning, Computer Vision, Big Data Analytics, Python, Java, C++, Data Structures and Algorithms, Database Management Systems, Software Engineering, Operating Systems, Computer Networks, Cloud Computing, and Distributed Systems.
Strong foundation in programming, computer systems, algorithm design, database technologies, and software development, supported by practical laboratory work and academic projects.

Website https://www.cuchd.in/ | **Field of study** Information and Communication Technologies | **Level in EQF** EQF level 6

COURSEWORK

Mathematics & Engineering Fundamentals

Engineering Mathematics, Discrete Mathematics, Probability and Statistics, Numerical Methods and Optimization using Python.

Programming & Software Development

Object-Oriented Programming, Data Structures and Algorithms, Programming Fundamentals, Software Engineering, Python Programming.

Advanced Computing & Emerging Technologies

Artificial Intelligence and **Machine Learning**, Computer Vision, **Internet of Things (IoT)**, Cloud Computing, Distributed Systems.

Computer Systems & Architecture

Operating Systems, Computer Organization and Architecture, Computer Networks, Database Management Systems.

Electronics & Automation

Digital Electronics, Basic Electrical and Electronics Engineering.

WORK EXPERIENCE

FULL STACK DEVELOPER INTERN – ZUMMIT INFOLABS – 24/02/2025 – 17/07/2025 – BANGLORE, INDIA

• Developed and maintained web application features using frontend and backend technologies.
• Implemented RESTful APIs and supported integration between client-side and server-side components.
• Worked with databases for data storage, retrieval, and CRUD operations.
• Used Git and GitHub for version control and source code management.
• Assisted with debugging, testing, and maintenance of application modules

FULL STACK DEVELOPMENT INTERN / TRAINEE – TECHBAIRN – 25/06/2023 – 29/10/2023 – BANGLORE, INDIA

• Completed practical training in full-stack web development.
• Developed web components using HTML, CSS, and JavaScript.
• Practised backend programming, database connectivity, and application logic.
• Learned integration of frontend components with backend services .
• Applied object-oriented programming concepts and problem-solving techniques.

PROJECTS

IoT-Based Smart Environment Monitoring System

Designed a smart environmental monitoring system to collect and monitor environmental parameters such as temperature and humidity using IoT-based sensors. Focused on sensor data acquisition, data processing, and visualization to support efficient environmental monitoring. Explored the integration of hardware components with software applications for IoT-based automation.
skills/technologies:: Internet of Things (IoT), ESP32 / Arduino, Python ,Sensor Data Acquisition ,MQTT, Data Visualization ,Embedded Systems

Cloud-Based IoT Data Management Platform

Made a cloud-oriented platform concept for collecting, processing, storing, and managing data generated by **IoT devices**. Focused on **backend** development, RESTful API integration, database management, and efficient data retrieval to support centralized monitoring of connected devices. Explored the integration of cloud computing and **IoT** technologies for scalable data management.
Skills / Technologies:: Java ,Spring Boot ,RESTful APIs ,PostgreSQL ,Cloud Computing ,IoT ,Data Management, Docker

Real-Time Object Detection System

Developed a computer **vision-based** application to detect and identify objects from **images and video** streams using deep learning techniques. Focused on image processing, object classification, and visual representation of detection results. Explored the application of artificial intelligence and computer vision for automated object recognition and real-time analysis.
Skills / Technologies:: Python ,OpenCV ,NumPy ,Computer Vision, Deep Learning ,Image Processing ,Object Detection

CERTIFICATIONS

Indian Institute of Technology Kharagpur (IIT Kharagpur), 26/10/2023
Introduction to Internet of Things

Successfully completed the **NPTEL** certification in Introduction to Internet of Things, offered by **IIT Kharagpur**, securing **79%** marks and earning a **Silver Medal**. Gained foundational knowledge of **IoT architecture**, connected devices, sensor networks, communication protocols, and real-world applications of IoT across different domains.

IBM (Coursera), 29/03/2024
Developing AI Applications with Python and Flask

Completed hands-on training in developing AI-powered applications using Python and Flask. Learned to integrate AI capabilities into web applications, build backend services, and create interactive solutions through practical implementation.

Google (Coursera), 29/03/2024
Automate Cybersecurity Tasks with Python

Applied Python scripting, file handling, and algorithmic concepts to automate routine cybersecurity tasks, analyze security-related data, and improve operational efficiency.

IBM(Coursera), 13/02/2025

Generative AI: Introduction and Applications

Gained knowledge of generative AI concepts, large language models, and their practical applications in content creation, problem-solving, and automation.

Link https://drive.google.com/file/d/16mylFfYaJBMAwt3uUiJ0RyCKramip6oh/view?usp=sharing

Google, 24/01/2025

Introduction to Git and GitHub – Google

Learned Git fundamentals, version control, repository management, branching, and collaboration workflows using GitHub to manage and track software development projects

LANGUAGE SKILLS

Mother tongue(s): **HINDI**

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	C1	C1	C1	C1	C1

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

SKILLS

Java (computer programming) | use object-oriented programming | Data Science: Python (requests, selenium, BeautifulSoup, pandas, matplotlib, seaborn, sklearn) | Python (computer programming) | SQL | database management | Databases PostgresSQL Oracle | DATA STRUCTRE & ALGORITHMS | principles of artificial intelligence | MACHINE LEARNING | use methodologies for user-centered design | Computer Vision | Javascript (React.js) | Data Analysis and visualization | analyse big data | REST APIS' | GIT AND GITHUB | Problem solving (problem analisys) | Internet of Things
